

Internship – New Product Development – vegan dairy product

In this internship we are looking for a student with experience in New Product Development.

What are you going to do?

- Writing a detailed project proposal for at least 2 vegan dairy products that will be determined by TOP bv
- Literature search about ingredients and functionality
- Market research and benchmark study
- Practical work on recipe development
- Performing measurements on pH, a_w , texture etc.
- Small risk assessment on shelf life and safety of the product
- Cost estimation of final product

What do we expect from you?

- You are creative, have knowledge about ingredients and functionality, process and general food safety.
- You have knowledge about product development and microbiology (basics).

Who we are?

TOP bv is an innovation company in the Food Valley region (Wageningen), strong in the field of development and realization of novel foods and process technologies for mainly the food industry. Our goal is to increase the profitability of the food industry by making state-of-the-art knowledge available for, and applying to, this industry. TOP bv works worldwide as a development partner for the food industry and its suppliers, such as machine builders, on projects concerning the development of new products, technological processes and machines.

In addition to consultancy, TOP bv also invests in its own development of technologies and associated business cases that shape the future and can be valued in different ways at a later stage. For example, TOP bv is a unique cross between a research institution, engineering firm and incubator.

What do we offer?

- This challenging internship offers a good variety of literature studies and practical work.
- You will be part of the team of TOP and join internal meetings.
- The products that will be developed will be used in a further stage to bring into the market.

Yes, this is me!

Are you a student with a lot of enthusiasm and persistence and is NPD a topic that really suits you? Please send your application and CV to vacatures@top-bv.nl, attn. Gretha Volders.
